

Epic: Educational website

- As the **client**, I want to be able to have a **visually appealing, clean, informative, and educative** educational website, and feel **proud** when using its functionalities.

Epic: Documentation

- As a **contributor/researcher/student**, we want to be able to **view** an **informative** and **modern documentation** on planimation to learn about how to write an animation profile. This includes **description/definition** of the extended functions and their parameters, as well as **example code and video**.

Epic: Browse and Search

- As an **user**, we want to be able to:
 - a. **browse** a **gallery of domains** with implemented animation profiles, and find it **simple** and **interesting**
 - b. **look up a domain using keywords** in a **simple** way.

Epic: Animation

- As an **user**, we want to be able to
 - a. **view an animation** that allow us to visualise the solution plan generated by the solver, so that we can analyse and compare between different solvers and planners. We want to be **impressed** by the animations and find it **modern**
 - b. **download PDDL files** of the selected domains to learn or modify the problem domains and the animations

Epic: Reference

- As a **researcher/student**, we want to be able to view a **comprehensive** list of **links** to other resources, in order to learn more more about PDDL and planimation.

Epic: Improvement Proposal

- As a **contributor**, I want to have a **straightforward guide and template on how to submit an improvement proposal** for planimation, such that I can follow the instructions to propose a potential improvement **confidently**.
